

# HIGH PERFORMANCE CLEANING MACHINES

MULTI-  
SURFACE  
STEAMERS

## Duplex - Non-vacumated Steamers

---

### Duplex Jet Steam Professional

- ▶ This powerful steam cleaner with a 3kw element is robust and reliable enough to breeze through a wide variety of cleaning and infection control tasks. Supplied with a comprehensive range of tools and accessories it makes light work of cleaning tiles, grouting, upholstery, windows, basins, toilets, kitchens plus many other surfaces besides. Other specialist optional tools are available.

### Duplex Janitorial Steam System

- ▶ This handy combination comprises of a Jet Steam Professional, Janitorial Trolley and Steam Mop supplied as one for a convenient solution to combine cleaning with infection control. The Janitorial Steam System is supplied with a comprehensive kit of tools and accessories which can be stored in the handy receptacles of the trolley which makes transporting the entire system from place to place in the working environment both quick and easy.

## Duplex - Standard Vacuumated Steamers

---

### Duplex Jet Vac Alpha

- ▶ Our entry level vacuumated steamer but built to the same high standards as the entire range using the highest quality components and processes. In our eco-friendly society the Alpha is the perfect choice for chemical-free, low water usage steam cleaning. Supplied with a comprehensive range of tools and accessories to tackle everyday cleaning on a multitude of surfaces and especially useful for infection control situations during an outbreak occurrence.

### Duplex Jet Vac Compact

- ▶ Our mid-range model with a larger capacity water tank for longer use between refills. Like all the machines in this range it has an integral trolley with two handy tool baskets to accommodate everything you need to carry out a wide range of cleaning and sanitizing tasks. An optional steam-mop is available for all models to revolutionize floor and wall cleaning. Features an enhanced tool-kit for the most demanding environments.

## Duplex - Water-filter Vacuumated Steamers

---

### Duplex Jet Vac Eco

- ▶ With its stainless-steel body and vacuum tank the Eco benefits from hot-water injection which when used in conjunction with steam produces exceptional levels of cleaning and sanitization. The water filter vacuum also removes allergens and dust from the environment making it particularly suitable for clinical situations where a high level of cleanliness is vital.

### Duplex Jet Vac Ultima

- ▶ Our top of the range model featuring chemical-injection enabling it to deliver exceptional de-greasing capabilities, particularly suited to commercial kitchens. Supplied with an enhanced tool-kit to complement its chemical capability for demanding tasks. An optional kit is available to transform this model into a highly-efficient gum and graffiti removal system known as the Gum-Go making this a truly versatile steam cleaning machine.

## Duplex - Steamtech Industrial Steamers

---

### Duplex Steamtech 4000

- ▶ A robust machine for industrial applications which require larger capacity tanks and detergent facility for cleaning and de-greasing in factory environments. Offering the same premium technology as other models in the range this machine's design is based on extensive research into the most demanding commercial and industrial applications and can play a key role in achieving the strict hygiene standards demanded by the food industry by sanitizing equipment and facilities. Also available with an optional Gum Go kit.

### Duplex Steamtech 12000

- ▶ A 415 volt 3 phase industrial steam cleaner with a high pressure boiler, integral vacuum and chemical injection making it our most powerful steam cleaning machine. It also features hot water injection making it the number one choice for heavy industrial cleaning. Used in conjunction with an optional 12m hose it allows high-level and remote cleaning capabilities for supreme versatility. Removes oil, grease and residues from equipment, tools and components in engineering and manufacturing facilities.
